

TechProcess Solutions Limited is PCI-DSS Compliant

TechProcess Solutions Ltd., one of India's leading providers of business solutions, has announced a major infrastructure upgrade on its online payments processing platform, BillJunction Payments. The platform features Network Load Balancing, conferring ability to process significantly higher numbers of concurrent transactions & enables service availability (i.e. uptime) of virtually 100%. In addition, the new infrastructure has been assessed and certified as compliant to the **PCI-DSS (Version 1.2.1) standard**.

PCI DSS stands for Payment Card Industry Data Security Standard. The standard represents a set of security practices that help ensure the safe handling of card data by preventing fraud through increased controls. This standard applies to all organizations that store, process, or exchange cardholder information related to American Express, Discover, JCB, MasterCard or Visa branded cards.

With the PCI-DSS Certification in place, Techprocess' payment gateway can ensure the highest standards of security & compliance w.r.t.:

- Establishment of a secure network in which online transactions are conducted
- Safe storage & encryption of card holder data during transmission
- Updated anti-virus software that protect systems against the activities of malicious hackers
- Access to system information & operations strictly on a need-to-know basis
- Constantly monitored & regularly tested networks that ensure that all security measures & processes are in place & functioning properly
- Establishment of a formal information security policy

TechProcess has witnessed a 25% growth over the past year in average transaction volumes for its online payment business & is currently integrated with over 500 of India's major web merchants & 24 leading banks to effect payments through credit / debit / cash cards & net-banking.

"With the internet emerging as a mainstream revenue generation channel for business, we feel that cutting-edge security, availability and scalability have become very important considerations when it comes to choosing the right payment processing platform. With this release, we have raised the bar to another level and are committed to offer our customers nothing but the best" says Bikramjit Sen, CEO, TechProcess Solutions Ltd.
