

India: TechProcess upgrades online payments platform

Wednesday 22 December 2010 | 08:13 AM CET

Indian payment services provider [TechProcess Solutions](#) has upgraded BillJunction Payments, an online payments platform, in a bid to improve its online payment processing capabilities.

Assessed and certified as compliant to the PCI-DSS (Version 1.2.1) standard, the platform incorporates a series of features such as Network Load Balancing, a feature designed to support the processing of concurrent transactions. Furthermore, the enhanced payments platform is set to ensure safe storage and encryption of cardholder data during transmission, through the implementation of an updated anti-virus software as well as via constant monitoring and regularly tested networks.

The TechProcess payments portal includes merchants from various activity sectors such as travel and ticketing, film tickets, entertainment, flower delivery services, education institutes, prepaid recharge, telecom, insurance and utilities.
